

# EcoSeal Finest protects vinyl sided home

## **EcoSeal Finest applied to entire home.**

It took just two and one-half hour's time and one gallon of **EcoSeal Finest** to completely seal this 2500+ sq. ft. vinyl sided home against atmospheric pollutants; plus added protection from UV fading and embrittlement and staining.

The **Finest** also seals fenestration, aluminum gutters, brick garage and vinyl fence to help make future washing a simple rinse off.
